THE LCE STUDENT'S BOOKLET OF CHALLENGES

Dear LCE student,

Your mission over the next two years is to use English as much and as often as you can in all kind of different situations.

The following challenges have been developed to help you be more confident and more fluent in your use of the English language. Real-life communication in English is not stress free, but you CAN do it!

You must complete these fun challenges to encourage you to do something new and go beyond your comfort zone ! You can do some several times, and there is room for your own challenges (i.e. if you end up using English in a particular situation, please note it down on the *Extra Challenges* lines).

Enjoy!

1. I identified 5 words in my own language that are the same as or borrowed from English. _____

Date(s) accomplished

Signature
